Social			Fishery participants	

Method

Step 1: Search for reported safety incidents involving injury or death in the past 5 years:

- In the following database: <https://www.atsb.gov.au/occurrence-briefs>
- Using a general search with the fishery name to identify any reported incidents

If no data are available for the fishery in the past 5 years, report "Data not found" and the year of data collection for the framework.

Step 2: Calculate and report the annual average number of incidents for the fishery using the number of incidents identified per year in the past 5 years. Report the year of data collection for the framework.
